

## **CONTOUR™DIABETES app – User Agreement, Walgreens**

Effective Date: June 1, 2017

Please review and consent to the sharing of your health information:

If you connect your CONTOUR™CLOUD account to your Walgreens account, the CONTOUR™DIABETES app will send Walgreens your health-related information, including blood sugar readings in units of measure and a timestamp.

Blood sugar readings with a timestamp older than 7 days from the date the app syncs with Walgreens will not be credited with Balance® Rewards points.

You must be in the CONTOUR™DIABETES app and connected to the Internet before the app can sync with Walgreens.

You can disconnect your CONTOUR™CLOUD account from Walgreens at any time by visiting the “App Connections” menu and selecting “Walgreens”.

I consent to Ascensia Diabetes Care sharing my blood sugar readings with Walgreens so I can earn Balance® Rewards points.
